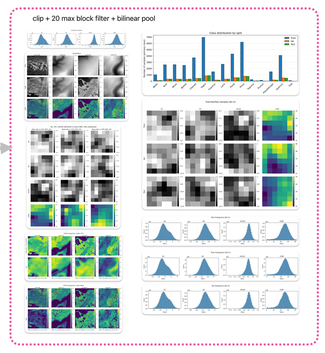
treesatai

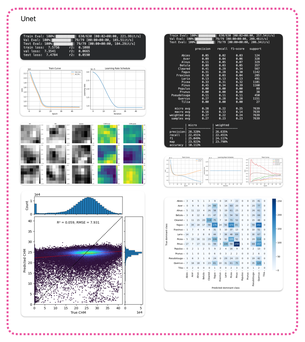
data

Looks manipulated

clip + 20 max block filter + bilinear pool

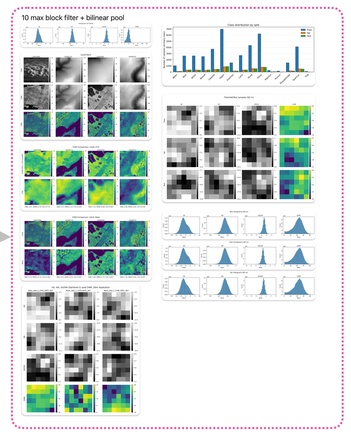


Unet

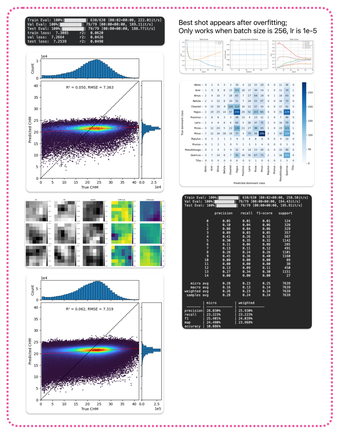


Simulate lidar tree height map

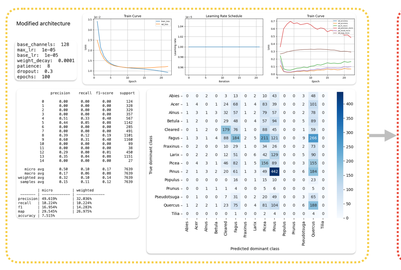
10 max block filter + bilinear pool



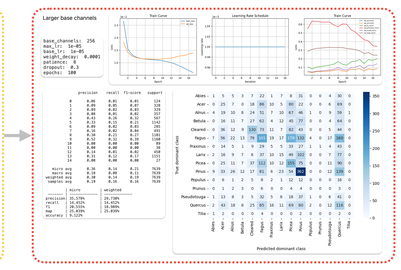
Best shot appears after overfitting;
Only works when batch size is 256, lr is 1e-5

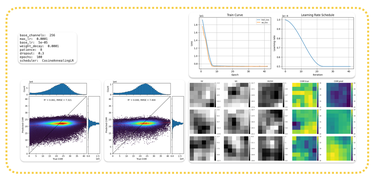


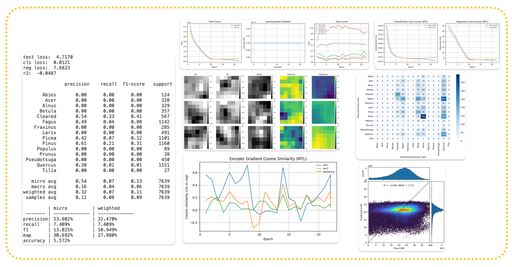
Modified architecture

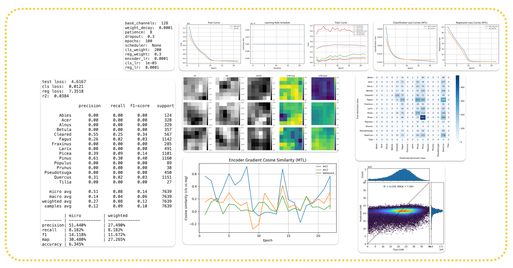


Larger base channels

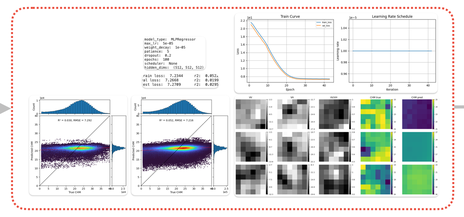


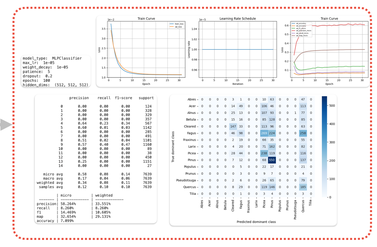




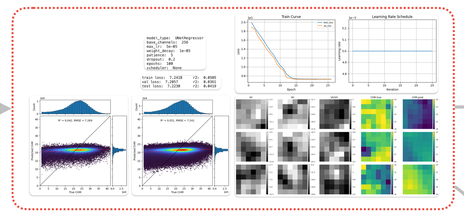


1.Baseline MLP

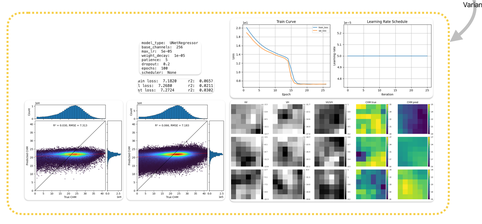


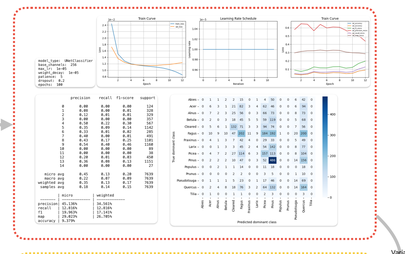


1.Baseline MLP

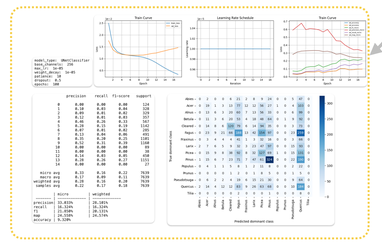


Variant



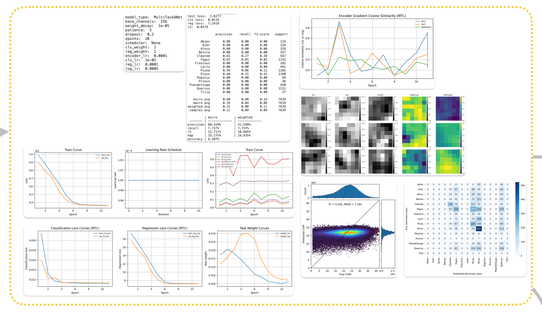


Variant

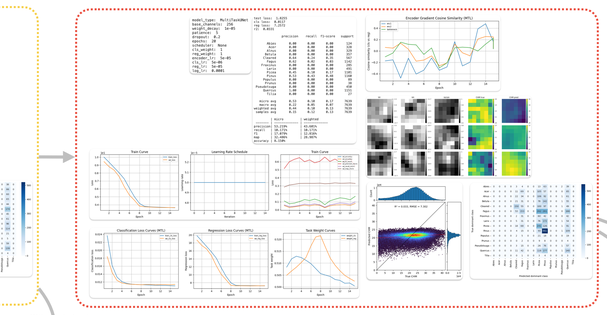


MTL

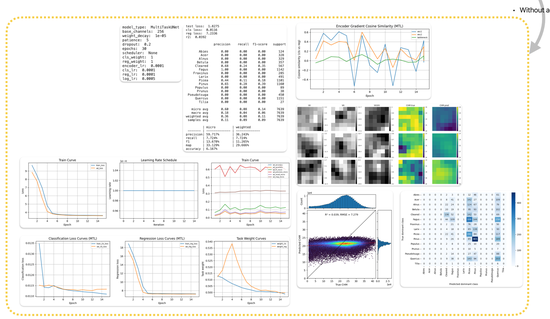
- Uncertainty loss
- Normalized loss
- adamtd lr

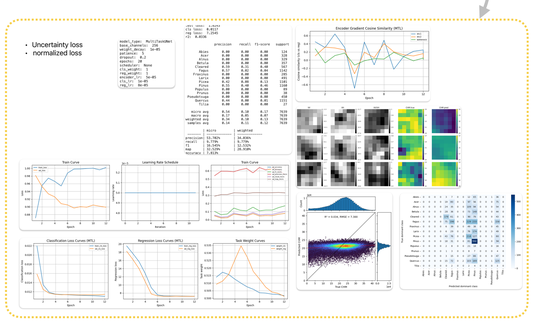


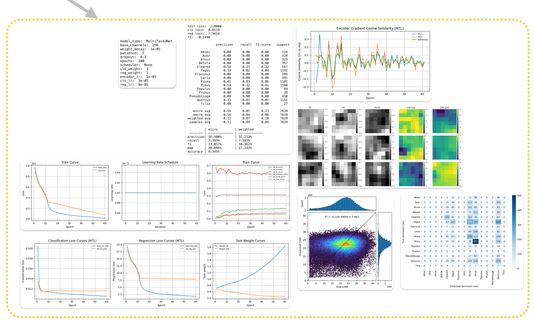
- Without adapting lr

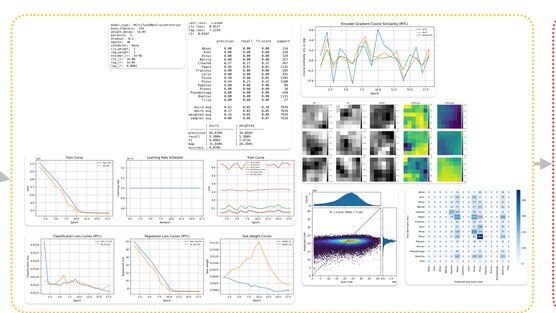


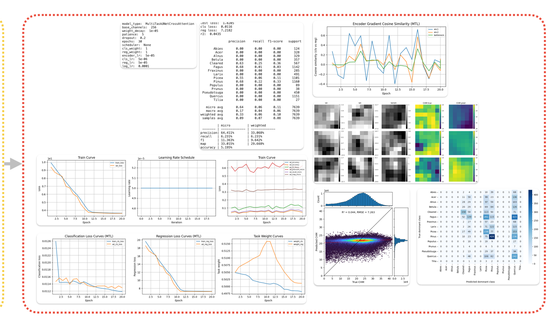
- Attention











- Uncertainty loss
- normalized loss
